## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101-Withdrawn***

1. The rejection under 35 U.S.C. 101 made in the first office action, mailed on 4-5-07, has been reconsidered by the Examiner. The Applicant's representative called to discuss the rejection. After the telephonic interview, the Examiner consulted a Quality Assurance Specialist in TC 2800 to confirm whether the 101 rejection should be upheld. It was decided that the claims (claims 19-36) meet the requirements of 35 U.S.C. 101. Therefore, the rejection has hereby been withdrawn. As this was the only rejection in the office action mailed on 4-5-07, and no further prior art references were discovered during an update prior art search, the claimed invention is considered to be in condition for allowance.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of an optometric apparatus, optometric server for providing a function, and their related methods, having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including as recited in the independent claims, claims 19, 32, 34, 35 and 36, which provide a main object of the claimed inventions to provide an optometric apparatus and an optometric method for performing eye examinations, in which subjects or even those with astigmatism can readily make

an eye examination using a computer screen without requiring a special piece of equipment.

Therefore, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Specification***

3. The Applicant should note that the "Disclosure of the Invention" on pages 4-22 includes passages directly linked to the claims. It appears that most of the information corresponds to the "new" claims filed with the application on 7-2-04, which will be renumbered as claims 1-18.

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evelyn A. Lester whose telephone number is (571) 272-2332. The examiner can normally be reached on M-F, subject to an increased flex schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky L. Mack can be reached on (571) 272-2333. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
